To AIC Community

I was asked by the mosque personnel to Audit their books and all related matter concerning the AIC financial records. AIC personal provided me with full access to all their Bank statements, Invoices, Estimates, Paypal records

In conducting this audit, i have followed the acceptable audit rules and practices. I have reviewed all their 2019 related documents. I am pleased to announce to the Community that i have found the Funds, it has entrusted, is been used wisely and honestly.

I have reviewed the records, like Bank statements, to match the funds received, and all the application of funds are matched with the Invoices, representing genuine use of money.

If any member has any question regarding my audit, please feel free to contact me
